TOWN MEETING WARRANT

(as known February 15)

Article 1. To choose all necessary town officers for the year ensuing.

Article 2. To raise such sums of money as may be necessary to defray Town charges, for the year ensuing and make appropriations of the same.

Article 3. To see how much money the town will raise and appropriate for the Abbie Greenleaf library; for the salary of the Librarian; for the maintenance of highways and bridges; for oiling our roads, and for lighting our streets for the year ensuing.

Article 4. To see how much money the town will vote to raise and appropriate for Memorial Day and to choose an agent to expend the same.

Article 5. To see if the town will vote to instruct the Selectmen to apply for state aid, and Trunk line aid and maintenance, for our highways for the ensuing year; and to raise and appropriate money for the same.

Article 6. To see if the town will vote to instruct the Selectmen to allow a discount of 2% on early payments of taxes.

Article 7. To see if the town will vote to raise and appropriate money to eradicate the Pine Blister rust.

Article 8. To see if the town will vote for State Aid for highway bridge improvement and to raise money for the same.

Article 9. To see if the town will vote to construct a cement sidewalk on Harvard street or elsewhere, and to raise and appropriate money for the same.

Article 10. To see if the town will vote to close and throw up the town road, nearly opposite the so known

Albert Streeter place, leading to the Cole Hill.

Article 11. To elect a delegate to represent the town at the forth coming Constitutional Convention to be held in Concord.

Article 12. To hear reports of Committees and Agents and to transact any other business that may legally come before the meeting.

Recommendations for the year 1930-31

Budget: 1930-31	\$11,202 00
Estimated income from sources other than taxation:	
Dog licenses	\$ 100 00
Rent of district property	200 00
Rent of gravel pit	75 00
Interest on Greenleaf Fund	475 00
Elementary tuition	500 00
	\$ 1,350 00
Difference between Budget and estimated income	\$ 9,852 00

The above statement explains the financial condition of the district. A year ago we expected to be able to report that this school year would close without a deficit. Owing to the fact that the Academy Trustees were unable to grant us an appropriation for our current expenses and to the fact that we had to make some repairs not anticipated in the postoffice building we shall again face a deficit at the close of the year.

After a careful consideration of the budget proposed for next year and of the probable income we believe that the sum of \$10,000 is the minimum that should be appropriated for school purposes. We recommend that the District raise and appropriate that amount.

Respectfully submitted,

FRED H. JESSEMAN,
DR. H. L. JOHNSON,
MRS. EVA B. HODGE.

SUPERINTENDENT'S REPORT

During the school year closing last June, 37 pupils were enrolled in the Senior High School, 19 in the Junior High School and 74 in the elementary grades. The average attendance was 103 and the percentage of attendance was 92. At present the membership is 128. The attendance has been good this year.

The teaching staff is the same as last year with two exceptions. Miss Dorothy Seavey resigned during the summer to accept a more lucrative position in Massachusetts. Mrs. Elizabeth Moore has taken the position in the intermediate grades. Mr. Donald D. Blanchard has succeeded Mr. Anderson as teacher of science and mathematics and coach of athletics. Mr. Blanchard is a Bowdoin graduate with two years of experience. His work thus far has been generally successful in your school. The other teachers are doing a high grade of work in their respective departments. Standard achievement tests, given at the close of the last school year, showed good progress by your pupils in comparison with school pupils throughout the country.

The essays, written by the seniors in the annual contest, the graduation exercise, and the prize speaking contests were splendid testimony to careful training and earnest endeavor. The pupils of all grades united to furnish an excellent program for Education Week. One of the pupils in the domestic science class this year won honorable mention in a national dressmaking contest, sponsored by the Butterick Company, in which thousands of pupils participated. The Academy is represented this year by boys' and girls' basketball teams. These teams are having successful seasons. In judging their record, one must take into consideration the fact that their op-

ponents in almost all cases are representatives of much larger schools than Dow Academy.

Mr. Joel Coffin, Jr., is furnishing milk free to all pupils in the elementary grades and to all others who need it this year. This is the greatest single contribution to the health of the children during the present year and is of unquestioned benefit to all. Clinics for remedial work in teeth and throat defects would be of great value if they could be financed. Good health is conducive to good school work and to sound citizenship.

Mr. Ernest Poole has continued his contributions of previous years, providing the money necessary for athletic contests and for playground equipment.

A committee of the Trustees of Dow Academy of which Mrs. Thomas F. Vietor was chairman, appointed last spring to raise money for improvements in the school building, was very successful in its endeavors. Approximately \$3,000 was raised and expended for the much needed improvements. The community is greatly indebted to its summer guests for their generous contributions and especially indebted to Mrs. Vietor for her untiring efforts in supervising the work done.

The primary room had a new ceiling. All the classrooms and corridors were painted. Modern plumbing was installed in the basements. The basement floors were painted. Good lights were placed in all classrooms. A lock to meet the requirements of the state law was placed on the front door. The blackboards were painted. The building was thoroughly cleaned. Twelve new chairs were bought. New equipment was placed in the domestic science laboratory and in the woodworking shop.

In addition to the work done inside the trustees had the exterior of the building painted and made provision for a more adequate water supply. The building is now in a condition that is a credit to the town. The janitor service is excellent.

In last year's report, the school board estimated that the deficit might be entirely eliminated by June 1930. The Aca-

demy trustees were able to appropriate from their funds for last year and this year the same amount, \$200, that they had appropriated the previous year. The trustees, because of extensive improvements in the cottages, were unable to assist the school board in either of these years. The school board also had to make alterations and repairs in the postoffice building amounting to approximately \$150 that were not anticipated when the report was written last year.

The budget proposed for next year is \$11,202, about the same as that for this year. The income available from sources other than taxation will be approximately \$1,350. The trustees may be able to increase that income slightly with an appropriation from their funds. In any case an appropriation of \$10,000 will be necessary to meet current expenses and to reduce or wipe out this year's deficit.

An appropriation of \$10,000 is a tax of \$781 per thousand dollars on the equalized valuation of the school district. This is not an excessive school tax, and is not high in comparison with other districts in the state maintaining a high school, and is not so high as some maintaining elementary schools only.

The income from the Greenleaf Fund is dependent upon your maintenance of a high school of a grade to insure satisfactory college preparation. Your own good will and the interest of your summer guests depend upon the maintenance of good schools. The members of the school board have studied all items in the budget and all possibilities of reduction in the light of probable consequences. They have discussed the financial status of the town and the taxpayers' viewpoint. Their recommendation should be granted in order to assure the continuance of the present high standing of your schools.

Your interest and co-operation during the past year have made my work in your midst very pleasant.

Respectfully submitted,

DANA S. JORDAN.
